# Install Node JS Screen Shots Mac/OS
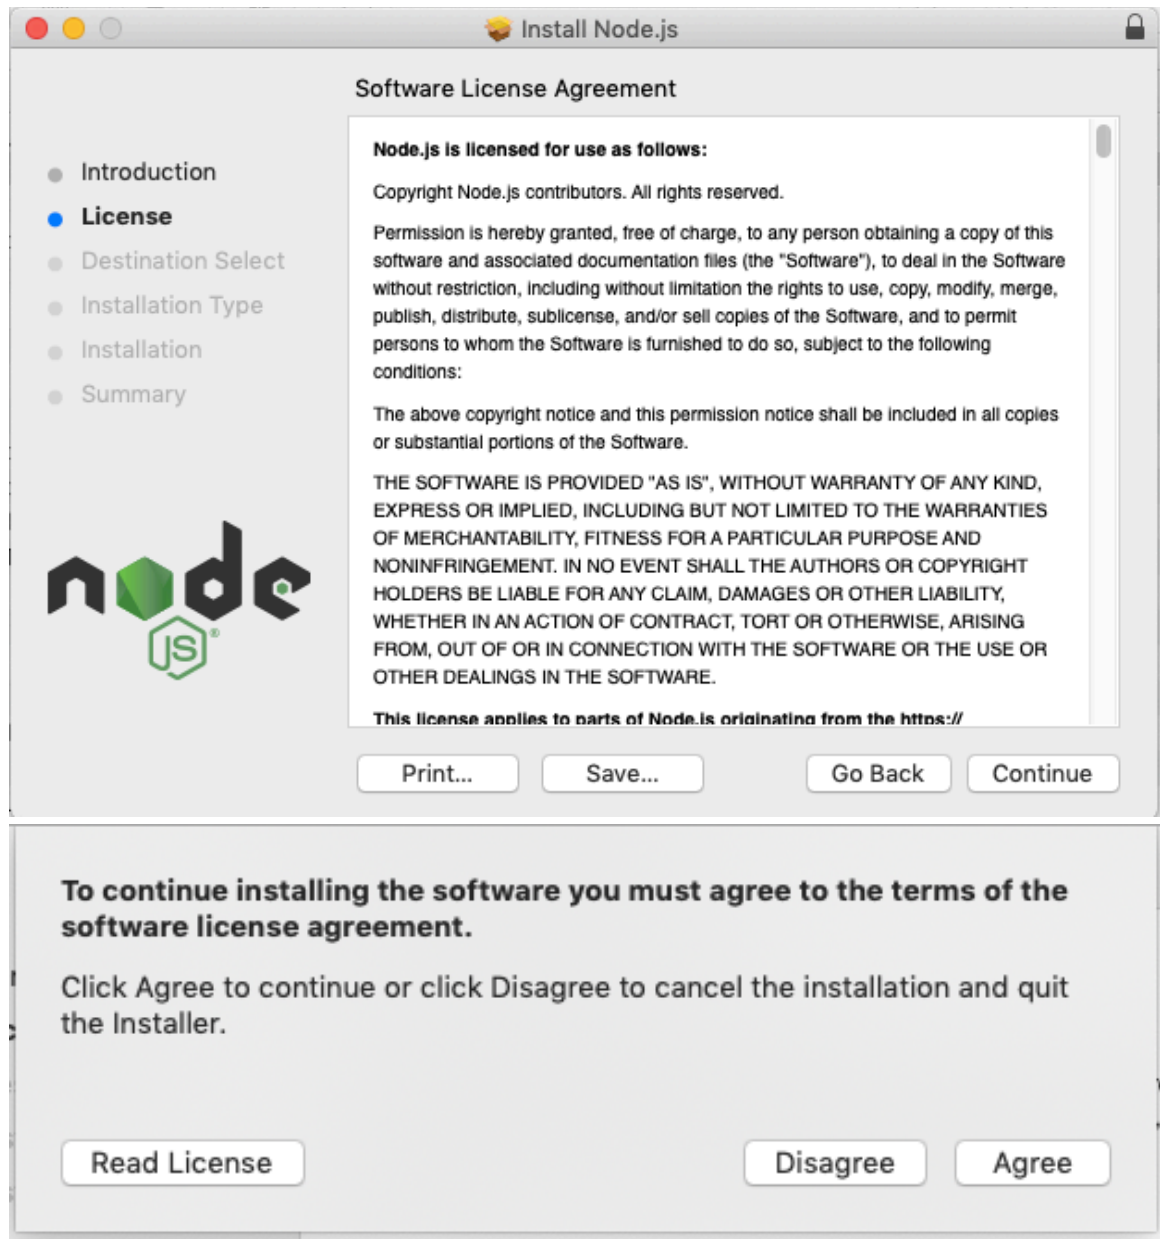

1. Download NodeJS Install Package file (node-v10.15.3.pkg)
   https://nodejs.org/dist/v10.15.3/node-v10.15.3.pkg

2. Run Installer:

Install Node JS Screen Shots Mac/OS

Install Node JS Screen Shots Mac/OS
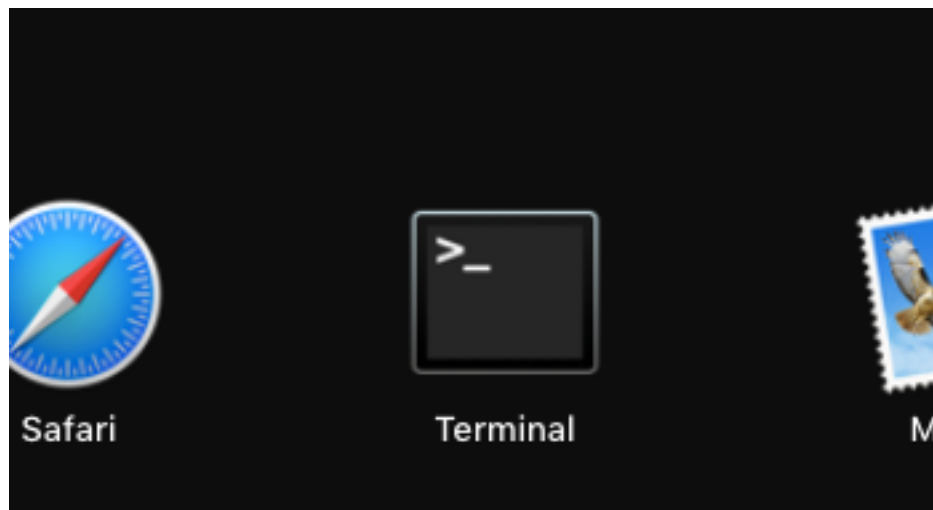

# Install Node JS Screen Shots Mac/OS

Install Node JS Screen Shots Mac/OS

Done.

Next Open a Terminal Prompt:

Set the Unix PATH to include node bin directory:

Type: export PATH=$PATH:/usr/local/bin

Install Node JS Screen Shots Mac/OS

Now Test Node Setup

Create a work directory and download demo Code

mkdir nodejsdemoapp

cd nodejsdemoapp

git clone https://github.com/devcmgm/herokudemo01.git

cd herokudemo01

npm start

open a browser and goto

 http://localhost:5000
